| **Introduction to Community Education (Online)** | EDUC 6142 (Cross-listed with HIST 6142) 
*The History & Practice of Community Education*  
Students will explore the history of community-based education initiatives, cultivating the insights, capacities and skill sets required to lead educational innovation, use information, media and technology effectively, strengthen critical literacies, and engage in leadership and community development. |
| **Educational Innovation (Online)** | TCH ED 6440  
*Innovation in Education*  
Students will explore innovation in community education contexts, examining approaches that embed learning in place, engage community members in co-created, inclusive experiences, promote systems thinking, and foster stewardship and advocacy. |
| **Information, Media & Technology (Online)** | ED TECH 6460  
*Technology Development in Community Organizations*  
Students will explore the effective use of technology in community education contexts, examining strategies to bridge the digital divide, leverage the power of information systems, engage in effective social messaging campaigns, and create media products with and for diverse audiences. |
| **Cultural Literacies (Online)** | ED FND 6422  
*Analysis of Cultural Literacies*  
Students will conduct a critical study of community relations, examining strategies that strengthen diversity, relevance, and inclusion, tap into community funds of knowledge, promote civil discourse and respectful dialogue, foster healing and resilience, and transform community education contexts. |
| **Leadership & Community Development (Online)** | TCH ED 6442  
*Leadership in Community Education*  
Students will explore the leadership skills and capacities required for effective community development efforts, including social innovation and entrepreneurship, adaptive management, cultural competence, and how to work with community collaborators to plan and implement a joint project. |
