CoachED is a customized coaching program for teachers. Participants are paired with experienced educators in a special partnership designed for advanced learning and career enhancement.

We designed CoachED to take you, as a classroom teacher, to your next level of teaching excellence. The program is personalized solely for you, with a growth plan and detailed feedback to address your questions or issues, and empower you to be the best possible teacher.

As new standards, expectations and accountability are added for all educators and students, the level of support and transformation needed to meet these expectations intensifies. Research tells us that it is extremely difficult to reach and maintain the highest levels of performance without professional assistance. The most effective support commonly comes through coaching.

CoachED will engage you in an experience offered through Professional and Continuing Studies in UMSL’s College of Education. This innovative program will:

- Deliver a unique opportunity for teachers at all grade levels and subjects, and at all experience levels
- Improve teacher-learning through the growth of knowledge, skills, application and reflection
- Provide ongoing learning with a seasoned educator who serves as a coach for a cohort of four colleagues
- Offer a learning experience for participants to earn one hour of graduate credit or for audit

What’s Involved?

As a participant, you will select an element of practice, based on data from your classroom, and then work throughout the course to improve your practice. CoachED will provide you with:

- Collaboration with a cohort of colleagues
- Onsite visits from your coach
- One-on-one coaching through videotaped sessions with ongoing feedback

CoachED will provide you with:

- 15 contact hours for one graduate credit hour (CoachED may also be taken as a noncredit professional development program and award 1.5 CEU’s, signifying 15 clock hours of professional development)
- Three onsite collaborative meetings
- Two site visit planning/reflection meetings
- Weekly/biweekly planning/reflection online
- Collection of your students’ data
- The Teaching Channel—resource/video upload
