

The **Bachelor of**

Educational Studies, Park and Museum Programs Emphasis

Provide experiential learning in a different environment.

Museums, science centers, zoos and aquariums, parks, field stations and public gardens are a few examples of institutions that have informal education at the heart of their operations. You can help these and similar institutions in fulfilling their educational missions.

**The Bachelor of Educational Studies,
with an Emphasis in Park & Museum Programs**

The BES, with an emphasis in Park and Museum Programs, prepares students to gain skills and insights that can be applied as innovative educators, program managers, activity directors and as curriculum developers in these informal learning settings. BES students in the Park and Museum Programs emphasis will be prepared for employment opportunities in organizations such as museums, science centers, children's museums, national parks and a variety of cultural institutions. Through the BES program, students have the opportunity to earn specific credentials, as needed, and to pursue academic minors related to their individual career goals. This degree program does not lead to Missouri teacher certification.

Apply your knowledge and skills in a variety of field and community based experiences which are included as part of your professional course work. These internship experiences take place in a variety of settings in the St. Louis region. Currently, the BES program offers internship experiences at recognized St. Louis institutions that provide opportunities to work with both suburban and urban populations of all ages and for students to participate in a variety of work roles and experiences.

Upon completion of the program, graduates will be able apply a unique understanding of social justice by addressing institutional and social barriers that limit access, equity, and achievement; conduct themselves in a respectful and professional manner that views failure as an opportunity to learn; apply reasoning and critical thinking while making connections among information, data and arguments to synthesize and interpret information; apply unique leadership, management and communication skills using oral, written, nonverbal and visual communication skills in a variety of formats and contexts; apply knowledge and skills to effectively manage programs; and demonstrate a unique application of best practices when teaching outside a traditional classroom setting.

UMSL | Education
University of Missouri–St. Louis

Fully accredited.

The Bachelor of Educational Studies at UMSL is earned through our fully accredited College of Education which provides Missouri Department of Elementary and Secondary Education certifications. Additionally, our counseling programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs and our school psychology program is accredited by the National Association for School Psychology.

Preparing for an ever-changing world.

The College of Education offers a variety of programs that lead to exciting and rewarding career opportunities. Our faculty, staff and community partners are committed to providing experiences to build the knowledge and skills needed for individuals to be successful in multiple educational settings and occupations. These careers include teachers, principals, and district superintendents; teachers and administrators for informal education organizations like museums, zoos and nature centers; counselors and mental health professionals for schools, hospitals, corporate employee assistance programs, clinics and private settings; and postsecondary leaders and instructors for community colleges, career technical schools, and four-year colleges and universities.

The college hosts many centers and initiatives that enhance student experiences in our programs and work with more than 36 different public, private and charter schools throughout the region. We also sponsor eight charter schools.

Serious education. Serious value.

The Bachelor of Educational Studies is designed to provide specialized knowledge, skills and training in a flexible format. You'll learn from highly qualified educators and researchers who hold terminal degrees from some of the world's most prestigious academic institutions.

The University of Missouri–St. Louis provides the knowledge, resources, tools, skills and support students need to be successful in our programs. Our comprehensive student support services include workshops, tutoring and career services to help you develop skills and strategies to be successful in the classroom and beyond. UMSL welcomes transfer students and our transfer specialists will assist you with getting the most transfer credits possible. We're also committed to increasing access to higher education, and as such, UMSL is consistently ranked number one in affordability in the St. Louis region.
