

The **Bachelor of Science** in

Secondary Education, with an Emphasis in English

Make a difference in the fight for literacy.

High school English teachers use their love of words and literature to foster and develop verbal and written comprehension skills ensuring student literacy. They also instruct in the areas of grammar, writing, and analyzing works of literature, adapting content to suit students' interests and abilities.

The Bachelor of Science in Secondary Education, with an Emphasis in English

The BS in Secondary Education, with an emphasis in English, prepares students to teach in secondary school settings, grades 9-12. This program requires the selection and completion of required coursework in English and includes field and practicum experiences in high school settings, culminating in Missouri teacher certification.

This program coordinates with the Department of English. Much of the discipline-specific coursework parallels the BA degree in English; however, the Missouri Department of Elementary and Secondary Education (DESE) requires specific coursework for teacher certification.

Upon completion of the program, graduates will be able to improve and enhance student learning; integrate technology to create meaningful student learning; create authentic and deep learning experiences; use learning science principles to design, implement and evaluate curriculum; foster effective working relationships; design and establish a safe, inclusive and respectful learning environment; and use equitable frameworks and inclusive practices to create a variety of instructional and assessment opportunities adapted to diverse learners to encourage all students' critical thinking, problem solving and performance skills.

B.A. in English with Master's Level Coursework for Secondary Teacher Certification

In addition to the BS in Education, students may opt to complete a BA degree in English as an undergraduate, followed by admission to the Graduate School for master's level teaching certification. The College of Education has a one-year accelerated program for post-graduate certification called Teach in 12, or students can choose a traditional path to certification. Graduate coursework for certification can apply towards a master's degree in secondary education with additional coursework.

UMSL | Education
University of Missouri–St. Louis

Fully accredited.

The Bachelor of Science in Secondary Education at UMSL is earned through our fully accredited College of Education which provides Missouri Department of Elementary and Secondary Education certifications. Additionally, our counseling programs are accredited by the Council for Accreditation of Counseling and Related Educational Programs and our school psychology program is accredited by the National Association for School Psychology.

Preparing for an ever-changing world.

The College of Education offers a variety of programs that lead to exciting and rewarding career opportunities. Our faculty, staff and community partners are committed to providing experiences to build the knowledge and skills needed for individuals to be successful in multiple educational settings and occupations. These careers include teachers, principals, and district superintendents; teachers and administrators for informal education organizations like museums, zoos and nature centers; counselors and mental health professionals for schools, hospitals, corporate employee assistance programs, clinics and private settings; and postsecondary leaders and instructors for community colleges, career technical schools, and four-year colleges and universities.

The college hosts many centers and initiatives that enhance student experiences in our programs and work with more than 36 different public, private and charter schools throughout the region. We also sponsor eight charter schools.

Serious education. Serious value.

The BS in Secondary Education is designed to provide specialized knowledge, skills and training in a flexible format. You'll learn from highly qualified educators and researchers who hold terminal degrees from some of the world's most prestigious academic institutions.

The University of Missouri–St. Louis provides the knowledge, resources, tools, skills and support students need to be successful in our programs.
