

**Charter School Application
2018-19**

Charter Schools Office
University of Missouri - St. Louis
3651 Olive Street, Suite 203D
St. Louis, MO 63108
(314) 516-4872
mendelsohnb@umsl.edu

INTRODUCTION

The final application is submitted after an applicant has submitted a prospectus and received an invitation to apply. We expect that successful applicants will have spent several years in the development process, so this final package should not be a rushed application. Each section below details what should be described and general evaluation criteria. It is understood that there is a vast universe of federal, state and local laws that govern the provision of public education and its surrounding programs. In most sections, major sections of law are identified for reference, but it is expected that applicants will know, or seek appropriate guidance in creating an application that meets all relevant laws, and the application will be judged on that basis, even if the laws are not cited herein.

If any instructions are not clear, the applicant has any special situations that seem not to fit law or the sections described below, or would like additional guidance about any aspect of education or charter school law, please direct questions to our office.

The application consists of the DESE Cover Sheet, three major sections, and accompanying appendices:

- DESE Cover Sheet
- Section A: Program Description
- Section B: Program Operations
- Section C: Facility and Budget
- Appendices: Including but not limited to:
 - Unit of Study (A.4)
 - Articles of Incorporation, IRS NFP Letter (B.2)
 - Bylaws (B.2)
 - Board Policies (B.2)
 - Board Resumes (B.2)
 - Assurance of Background Checks (B.2)
 - Service agreements, if applicable (B.2)
 - Other appendices as determined by the school

The Performance Contract and DESE Standard Requirements and Assurances

Once the Charter School Office approves the application, it will work with the applicant team to prepare it for submission to the Missouri State Board of Education (MOSBOE). Together, our office and the applicant team will negotiate and approve a five-year performance contract that includes measureable student academic achievement targets and include it in the application appendices. To examine the performance contract template, see Appendix 4: UMSL Charter School Performance Contract Template in the UMSL CSO Handbook, located at our [website](#). The board of directors will also approve an assurance statement that the school will comply with all state and federal statutes and regulations that govern Missouri's charter public schools.

The DESE Cover Sheet

You will find the two-page DESE Cover Sheet on pages 2-3 below.

SCHOOL DESCRIPTION (1 pages maximum)

The purpose of this section is to have a snap-shot description of the school. Describe the schools mission, curriculum, grades served and what benefits the students will enjoy as a result of attending this school. Your description will be used by the sponsor to provide information to the public.

APPLICATION CERTIFICATION

I certify that I have the authority to submit this application and that all information contained herein is complete and accurate. I recognize that any misrepresentation could result in disqualification from the application process or revocations after award. The person named as the contact person for the application is so authorized to serve as the primary contact for this application on behalf of the organization.

BOARD APPROVAL

I certify that the founding board of the school has reviewed and formally approved this application on

SECTION A: PROGRAM DESCRIPTION

This section comprises the entirety of your school’s education program—its mission, vision, philosophy, values, and goals, and who carries out this vision, for what students, and what they will achieve in your school. Please include the following sub-sections with the recommended contents:

A.1 Mission, Vision, Philosophy and Goals

State the school’s mission, vision, philosophy, and general goals. Describe the school’s educational foundation and the culture or ethos. Tell us about the population you expect to serve and who will teach them, and why they would attend and support this type of school. View this section as a 1-2 page “elevator speech” that can be used to describe your school to a potential donor.

Evaluation Criteria

A response that meets the standard will:

- Present a compelling 1-2 sentence mission statement that defines the purpose of the school.
- Present a coherent and concise vision of the school, from a learning perspective, including what the school will look like in 5 years and 10 years if it is achieving its mission.
- Provide a compelling justification for the existence and support of this school compared to all other education options available for your target population.

STATUTORY REFERENCE(S): 160.405.1, 160.405.1 (1)

A.2 Student Population, Recruitment and Enrollment

Based on the preceding description of the school mission, this section should describe the school's student population and explain how the proposed mission, vision, philosophy, and general goals align with the educational needs of the student population. The applicant should discuss enrollment goals, both numeric and demographic, and discuss where their expected students are likely attending school now and why they would choose this school. Address attrition and mobility of students, and transportation. Discuss admission policy for grades above entry level. Also discuss how your model and enrollment plan may impact families and their decision to attend.

Complete an Anticipated Enrollment Table for each year of the school's proposed charter. Discuss any assumptions, risks, or potential limitations. Describe how you will recruit students. Discuss publicity, marketing, and strategies to reach all eligible families. Discuss the enrollment process, preference policies, back-filling, and enrollment policies when demand exceeds available seats.

Supplementary Material

- Admission and enrollment policies, including procedures to be used in the case of excess demand for open seats.

Evaluation Criteria

A response that meets the standard will:

- Demonstrate a clear understanding of the population the school intends to serve.
- Present a persuasive explanation of how the proposed mission, philosophy and general goals will meet the needs of the population.
- Present evidence to indicate that the enrollment projections by grade and school-wide for each year of the charter are realistic.
- Present demographic data verifying the identified population the school intends to serve.
- Include an effective outreach and recruitment plan that demonstrates understanding of the community to be served.
- For schools serving high-risk populations, describe how school will verify students as high-risk for enrollment.

STATUTORY REFERENCE(S): 160.405.1, 160.405.5, 160.410, 160.405.1(13), 160.405.2(4)
160.415.11

A.3 Educational Foundations, Climate and Culture

Describe, in detail, the school’s educational foundations, include any relevant research and background on models used for developing this school and deciding on the model.

Describe the school’s climate (spirit, ethos, norms) and the school’s culture (expectations, collective perception.) Describe strategies the school will employ to develop and sustain a safe and orderly climate that supports fulfillment of the educational goals and how they are reflected in the education philosophy of the school. Describe how the school will address the social and emotional development of students. Explain the school’s student behavior philosophy and discipline policy or code of conduct for both the general student population and for students with special needs.

Many schools derive their foundations from an external source. Schools may be developed in partnership with a university or other education or service provider. These may be used for the training of future teachers, educational experimentation, educational research, or professional development, or may be a social service or medical provider in need of an education partner.

Schools may also partner with other entities that require certain operating requirements, standards, or fees. If a school intends to be affiliated with any larger organization through contract or other formal agreement, indicate how this relationship impacts the educational program. Examples include, but are not limited to: licensing organizations such as KIPP, Montessori, SABIS, Waldorf, or International Baccalaureate, and partnerships, like New Tech Network.

Supplementary Material

- Relevant research support and/or relevant outcomes from similar school models.
- Background information on the partner including relevant performance data for other schools in the partner portfolio.
- The services agreement(s), or template version if not yet executed, and term sheet(s) between the governing board and any partners is required in the application appendices Also provide a list of all other schools in MO affiliated with the partner, past or present, with contact information, and if desired, or if there are none in MO, in other states with similar populations.
- Faculty, staff, parent, or student handbooks, discipline policy, or other policy documents.

Evaluation Criteria

A response that meets the standard will:

- Describe the school’s educational foundations and research-based evidence of positive outcomes justifying those foundations.
- Present a coherent and concise description of the school’s educational philosophy and if applicable, innovation. Address what makes this proposed school unique from already available public-school options.
- Present a persuasive explanation of how the school’s educational foundations will meet the needs of the student population described in A.2 above.

- Provide a sound justification and process for selecting partners.
- Describe the school's culture (expectations) and climate (ethos).
- Describe how the school will promote the culture and climate with students, but also with board members, faculty, staff, parents, community and vendors.
- Describe an approach to student discipline that is likely to promote a safe and orderly learning environment.
- Present legally sound policies for student discipline, suspension, dismissal and expulsion or a reasonable plan for their development.
- Include evidence that the school will ensure a safe environment conducive to learning.

STATUTORY REFERENCE(S): 160.261, 160.405.1(5), 160.405.2, 168.071

A.4 Curriculum and Instruction

Provide a description of the curriculum development process and curriculum to be used by the school, including measurable objectives and subject area content and skills for each grade level. Show how the curriculum aligns with the Missouri Learning Standards. Discuss the specific strategies that will be relevant or necessary to successfully implement the curriculum. Discuss how curriculum and instruction needs are reflected in plans for the training of new teachers and ongoing professional development.

Indicate if the charter school intends to use curriculum that has already been developed or if the school intends to develop core curriculum following Missouri State Board of Education approval. For new models, reference and explain supporting research verifying how your approach will achieve your anticipated outcome for the targeted student population.

Applicants who intend to operate career education programs must complete the Application for Approval of Career Education Programs and explain the career and technical components in addition to the standard required curriculum. Also, be sure to address all components throughout the remainder of the application, specifying if there are differences in requirements or expectations in different tracks.

For all schools, also be sure to explain how the instruction will be delivered—virtually, in classrooms, by a teacher, using small groups, team teaching, laboratories, and if any other special strategies will be employed, such as experiential learning, project or problem-based, or other methods. Describe any plans for extra-curricular or enrichment activities that will be important to your program and plans for assisting students in transitions to additional education or work placement. Also highlight any community partners and opportunities for your students. This might include field trips or other out-of-school experiences, summer internships, employer partnerships, or community experience programs.

Required Document

In the appendices, include a full unit of study from a full-year course that includes the unit assessment and demonstrates alignment or consistency with the school's mission and philosophy.

Supplementary Material

- Curriculum guides, or links for any commercial programs or contracted material, such as Montessori, or IB.
- For career and technical programs, include results of community-based assessments, student interest survey data, advisory committee recommendations, and needs identified by business and industry/employment outlook. Student interest survey data must be derived from Missouri Connections or a similar student interest assessment.
- Partnership agreements, articulation agreements, or other evidence of learning partnerships.

Evaluation Criteria

A response that meets the standard will:

- Present a clear and coherent framework for teaching and learning—particularly in core academic areas—aligned with Missouri Learning Standards, and consistent with the school’s mission, vision and educational foundations provided in previous sub-sections.
- Demonstrate understanding of relevant instructional strategies consistent with the school’s philosophical approach to educating students.
- Present a persuasive explanation of how the school’s curriculum and instruction will meet the needs of the student population described in A.2 above.
- Describe the process for developing the scope and sequence for core academic subjects over the next 3-5 years including a timeline and benchmarks.
- Identify sound research, experiential or theoretical base, and foundational materials that will guide curriculum development.
- Describe how the curriculum will be documented for and communicated to teachers – especially new to the school - including timelines and benchmarks.
- Present a coherent process for professional development that is likely to support effective development and implementation of the education program.
- Describe how staff development needs will be assessed.
- For career and technical programs, present a compelling rationale consistent with business and industry needs, student interests, and advisory committee recommendations.
- For virtual or experiential programs, a plan for adequate monitoring of a student’s school day, including the delineation of on- line and off-line time in virtual programs.
- A plan for adequate technical or other support for students and parents or guardians in any schools that requires special experiences, like virtual schools, transportation in experiential programs, or other equipment or fees in career and technical programs.

STATUTORY REFERENCE(S): 160.405.1(8), 160.405.4(5), 160.405.5(2); 160.518

A.5 Assessing Student Performance

Describe the academic standards beyond the applicable state and sponsor standards you plan to adopt or develop. Describe the adoption and/or development process. Take one grade level and subject area as an example and explain how these additional standards exceed applicable state and sponsor standards.

Describe the school's approach to student assessment, both formative and summative. Explain how the school will evaluate progress of individual students, (including subgroups), grade levels, cohorts over time, and the school as a whole toward meeting this school's goals and state requirements. Detail how the assessment(s) will be used to measure the impact of the school's model and education philosophy of the school.

In particular, describe how the school will determine proficiency (by grade, achievement level, or grouping level) for mathematics, communication arts, science and social studies. For high school courses, describe the school's plan for developing and using end of course assessments. For career, technical, experiential, virtual, or credit recovery programs, describe how course progress will be monitored and credit will be earned.

Applicants proposing to operate an alternative credit program serving high-risk students should propose comprehensive school-specific academic and behavioral measures and explain how those measures align with the school's mission, the proposed educational program, and the statewide accountability system. Describe how the school will align to state graduation standards and/or use the Missouri Options program.

Discuss how the school uses assessment information to modify the educational program and improve instruction, student learning and staff development. Detail the school's policies and criteria for promoting students to the next grade or level for graduation from the school.

Evaluation Criteria

A response that meets the standard will:

- Align with the school's mission, student population, and overall educational priorities.
- Represent a clear, credible, and sound plan for measuring and reporting the educational performance and progress of individual students, grade levels, cohorts, and the charter school as a whole including valid and reliable measures of student outcomes.
- Explain how the school will use assessment data to drive key decisions aimed at improving academic outcomes.
- Demonstrate understanding of Missouri assessment requirements.
- Present clear criteria for promotion from one level to the next, and for graduation.
- Provide appropriate methods to be used to insure authenticity of student work and adequate proctoring of examinations in virtual programs.

STATUTORY REFERENCE(S): 160.405.2, 160.405.5(2); 160.405.5 (6); 160.518, 162.125

A.6 Instructional Staff

Discuss the staffing plan for the term of the charter. Include a staffing schedule matched to student enrollment on year one and over the life of the charter. Discuss how the staffing plan supports sound operation and successful implementation of the school's educational program and the expected student population. Explain the school's strategies for professional development in alignment with the school's mission and goals.

Describe the instructional skills, experience, and development that teachers will need in order to be successful. Describe what strategies the school will use to recruit and retain effective teachers. Explain how the school determines appropriate experience, training and skills of non-certified instructional personnel. Also, be sure to indicate if the previously identified educational foundations, controlling contracts, or special curriculum require specific training or certification, staffing levels, professional development or other staff requirements.

Discuss new teacher mentoring, teacher evaluation and compensation strategies to promote retention, and hire quality staff. Be sure to discuss class sizes, teacher preparation and collaboration time, plans for aides and substitutes and all supplementary professionals, including, but not limited to librarians, reading or math specialists, and special subject teachers.

Supplementary Material

- Staff Handbook or Employment Manual
- Personnel policies

Evaluation Criteria

A response that meets the standard will:

- Demonstrate a sound understanding of staffing needs that are aligned with the budget and with the school's anticipated enrollment.
- Demonstrate a sound understanding of staffing needs with respect to successful implementation of the educational program.
- Present strategies for recruiting and retaining effective teachers that are realistic and reasonably likely to be effective.
- Present strategies to assure teachers are receiving professional development that is aligned to school mission, advancing the quality of instruction and advancing student outcomes.

STATUTORY REFERENCE(S): 160.415, 168.071, 160.405, 160.42

A.7 School Calendar and Daily Schedule

Present the school calendar for the first year of operation, showing the number of days the school will be in session and sample daily class schedules showing daily hours of operation and allocation of time for core instruction, supplemental instruction, extra-curricular activity, and after-school activities, as applicable.

Describe how the calendar and daily schedule support the education philosophy and academic strategy of this school. Also, discuss how the calendar and day fits the needs and capacity of the student population. If there are barriers, such as transportation to activities, parent involvement requirements, or other expectations, please discuss.

Describe a “day in the life” of a student who attends this school, and an average classroom teacher, then discuss how that daily schedule might change over the week—in order to include special subjects, pull-out or push-in time, and teacher development.

Evaluation Criteria

A response that meets the standard will:

- Align with the school’s educational mission and goals, curriculum and instruction plans, and assessment plans.
- Meet the differentiated needs of the student population.
- Accurately represent all teacher preparation, mentoring, observation and evaluation in the school schedule and calendar.
- Comply with minimum requirements for the number of school days and hours pursuant to 160.041.
- Provide, in advance, for the makeup of a minimum of six inclement weather closure days pursuant to 171.033.2.

STATUTORY REFERENCE(S): 160.041; 160.405.1; 171.033(2)

A.8 Special Student Populations

LEAs are required to meet the needs of, and provide programs of instruction suitable for the full range of student means and ability, from homeless students to handicapped and disadvantaged learners, and those who are academically advanced. Missouri's charter public school law places a priority on meeting the needs of high-risk and alternative populations. Explain specifically how these students will be identified, how the school will develop plans for their education, how their progress will be monitored, and how the school has budgeted and staffed to meet those responsibilities.

In addition, explain how the school's curriculum, approach to instruction and assessments will be designed or adapted to serve those students with special needs, particularly those with limited English proficiency and those identified with disabilities. Describe the school's plan for educating children with gifted needs, including gifted children with limited English proficiency. You will be required to meet all minimum standards and requirements, but highlight how your school's philosophy, curriculum or practices will better meet the needs of students of all abilities.

Evaluation Criteria

A response that meets the standard will:

- Demonstrate capacity to meet state and federal requirements regarding the identification and education of students with disabilities, students who are homeless and children who are gifted.
- Describe the school's plan for the implementation of special education services.
- Contain written procedures to systematically identify and serve gifted/talented students in all grades consistent with state administrative rules and regulations.
- Provide identified gifted/talented students with instructional objectives, strategies, and assessments that are appropriate to their identified needs and are provided on a continuing basis as these students progress through the grades.
- Demonstrate capacity to meet state and federal requirements regarding identification and education of the likely ELL population.

STATUTORY REFERENCE(S): 160.405.1(2), 160.405.5(7), 167.020

A.9 Academic Objectives

Charter public schools are expected to offer families quality educational options and as such, are subject to sponsor, state and federal accountability requirements. In addition to the legal charter agreement with a sponsor, the charter performance contract will include a set of core educational performance expectations that reflect state accountability requirements and negotiated minimum performance expectations. In addition to those standard requirements, schools should have aspirational goals, and other goals particular to the school's educational philosophy and organizational priorities.

Well-developed school-specific goals will be SMART:

- Specific (targeted subject, grade level, student population).
- Measurable (based on identified indicators, baseline and expected performance levels - absolute and/or growth - and a reliable measurement instrument).
- Ambitious and attainable (both aspirational and realistic).
- Relevant (to your mission and to identified need).
- Time-bound (a defined duration of time).

State statute provides charter schools with the flexibility of determining the length of time to accomplish the school's goals. Applicants should identify their primary academic goals and explain how those align with the school's mission, the proposed educational program, and the statewide accountability system. Describe how you plan to maintain accountability to those goals and identify possible interventions you will implement if those goals are not met, in any time period. Indicate at what level of failure you will consider closure and/or reconfiguration of the LEA, buildings, or grades, and at what level of persistent failure the board will decide to close buildings, or the entire LEA.

The Performance Contract

If the UMSL Charter School Office approves the application, it will work with the applicant team to prepare it for submission to the Missouri State Board of Education (MOSBOE). All the goals described in this sub-section will be distilled into a five-year performance contract that the applicant team negotiates with the UMSL CSO and adds to the application appendices. It will include a list of schools that the applicants. To examine a performance contract template, see Appendix 4: UMSL Charter School Performance Contract Template in the UMSL CSO Handbook, located at the UMSL Charter Schools [website](#).

Evaluation Criteria

A response that meets the standard will:

- Set high standards for student learning.
- Identify outcomes that goals and outcomes that align with the school's mission and educational program.
- Define goals and objectives that are specific, measurable, ambitious and attainable, relevant and time-bound.

- Include a timeline for students to meet performance standards that shall not be construed as permitting a charter school to be held to lower performance standards than any other public schools within a district.
- Set specific measures for sub-group population if it differs significantly from the school's overall population.
- For schools for high-risk populations, specify the time frame in which students will be expected to meet state performance standards.
- Identify the lowest threshold for performance the board will tolerate before enacting closure procedures.

STATUTORY REFERENCE(S): 160.405.1(1); 160.405.5(6).

SECTION B: PROGRAM OPERATIONS

This section comprises the entirety of your school's structures and systems for governance, leadership, management and finance. Please include the following sections with the recommended contents:

B.1 Overview: Governance, Management and Operations

This sub-section should present a 1-2 page executive summary of the remainder of this section. Describe briefly the entity that will hold the charter, its governing board and relationships to any other major contractors or partners. Briefly describe the philosophy and/or strategy used to form your founding board and how you will recruit and train new members in the future.

Briefly clarify how all the entities involved in leading and operating the school will work together. Include who will lead major decisions and operations functions, including what services will be contracted. And finally, discuss how the school will encourage and manage participation of parents, the community and any other stakeholder entities.

Provide a brief overview of your facility plans and infrastructure needs and how these will influence governance and operations in the next ten years. Present highlights of your budget, and major assumptions. Significant external resources, major contracts, major growth and expansion are all considered major assumptions.

Finally, highlight anything that makes your application different from other schools.

Evaluation Criteria

A response that meets the standard will:

- Present a clear picture of how all stakeholders will be involved in governing, managing and operating the school, with clear lines of authority and accountability.

B.2 Governing Board Composition and Corporate Organization

Describe the entity that will hold the charter and be responsible for governance of the school and ensuring the terms of the legal charter agreement and performance contract are met. Provide documentation of the entity's legal status including Articles of Incorporation, Bylaws, and documentation of legal not-for-profit status. To the extent that the organization exists and has functions independent of the operation of the proposed school, provide a brief description of the organization, its history, its current operation, and the relationship between its existing operations and the proposed school.

Describe the philosophy or strategy used to create the founding board. Discuss the purpose of your board, the knowledge, skills and abilities sought and the current strengths and weaknesses of the board. List the members of the proposed governing board including their names, current employment, and relevant experience or qualifications for serving on the board, including, but not limited to, their relationship to the community in which the school will be located. Describe the experience the member brings to the governing board and school. For each proposed governing board member, the application should include a resume or CV in the appendices.

Describe how additional board members will be recruited, how current board members will be replaced, and how the board will train current and new members. Discuss, in general terms how the board will carry out its duties, such as committees, selection of officers, and evaluation of its own oversight and the operations of the school.

Required Documents

- Articles of Incorporation signed and dated
- Documentation that the applicant is a Missouri nonprofit corporation and has applied for and/or received not-for-profit status from the Internal Revenue Service
- Corporate By-laws signed and dated
- Any existing board policies
- Board member resumes
- Documentation or assurances of satisfactory completion of criminal background checks and family care safety registry checks for all board members

Evaluation Criteria

A response that meets the standard will:

- Include all required documents.
- Indicate that the board has a thorough understanding of their governing role and ultimate responsibility for the school.
- In the case of pre-existing organizations, demonstrate that operation of the proposed school is consistent with the organization's overall mission and operation and there are no conflicts of interest.
- Demonstrate no other external conflicts of interest.
- Present a board that has capacity and willingness to oversee the successful development and implementation of the education program presented in the application.

- Demonstrate capacity to oversee the effective and responsible management of public funds.
- Demonstrate capacity to oversee and be responsible for the school's compliance with its legal obligations.
- Provide evidence the board is sufficiently connected to the school district area, local community and/or targeted population.

STATUTORY REFERENCE(S): 105.450; 160.400.5; 160.400.11; 160.405.1(5); 160.405.2(1); 160.405.5 (8) (a), 610.010-030; 105.483 -105.492 and 5 CSR 20-100-260(2)(E)

B.3 Management and Operations

Include an organization flow-chart that clarifies the organizational structure of the school and its lines of authority and accountability. The chart should include the board, the sponsor, and any external stakeholders. Explain the management roles and responsibilities of key administrators with respect to instructional leadership, curriculum development and implementation, personnel decisions, budgeting, student data/records management, legal compliance, and any special staffing needs.

Your response should describe the primary responsibilities for each key position and identify critical skills or experience necessary to fulfill those responsibilities. This information should be included for all management staff identified on the organization chart. The school leader description should be especially detailed including desired qualifications and responsibilities. If the school leader has not already been identified, discuss plans for recruitment and selection of the school leader. If the school plans to have a larger management structure, with a leader and an instructional leader, dean of students, and/or other administrators, provide key responsibilities of all administrators and describe key planning and decision-making activities and who holds accountability.

If management personnel are going to be phased in over several years, provide a time-line that indicates the year staff will be hired.

Evaluation Criteria

A response that meets the standard will:

- Demonstrate understanding of all school management needs and priorities.
- Provide coherent delineation of the roles and responsibilities for administering all school operations.
- Provide coherent delineation of the roles and responsibilities between the school's governing board, management and any partner entities.
- Provide clear description of services to be provided by any external management or partnering entities.
- Provide contract performance expectations that are consistent with the school's accountability requirements and the means by which the board will hold other entities accountable for meeting those expectations.
- A staffing plan that appears viable and adequate for effective implementation of the proposed educational program
- Staff schedule matches budget. (For more on the budget, refer to C.2 below)

STATUTORY REFERENCE(S): 160.405.1(5), 160.408.11

B.4 Financial Operations and Data Management

Data collection and reporting is a vital activity that is also the foundation for financial management. Describe the systems and procedures for managing the school's data and finances and identify the staff position(s) that will be responsible for financial oversight and management.

Describe how the school's finances will be managed and who will be responsible for the protection of student and financial records. Your response should address day-to-day student data management and plans for student data. It should also address financial management systems and procedures, including internal controls that guard against conflicts of interest. You should also address basic financial management such as who will be responsible for major fiscal responsibilities, what functions you expect to be outsourced, and the role of an external accountant or auditor.

Evaluation Criteria

A response that meets the standard will:

- Demonstrate understanding of the school's financial management and public stewardship obligations.
- Present evidence that the school will have or has capacity to develop adequate policies and processes for tracking enrollment and attendance eligibility, eligibility for free and reduced priced lunch; special education and limited English proficient enrollment.
- Show that policies and procedures are consistent, transparent to all stakeholders including parents, employees and the general public.
- Demonstrate preparation to meet its annual audit, Annual Secretary of the Board Report (ASBR) and other key financial management obligations.
- Ensure that any grants or federal programs the charter receives are administered according to established guidelines including the Code of Federal Regulations, Uniform Grant Guidance (OMNI), and the Education Department General Administrative Regulations (EDGAR).

STATUTORY REFERENCE(S:)160.405.1;160.405.4; 160.405.5(4) Additional information:
<http://dese.mo.gov/sites/default/files/fas-GeneralFederalGuidance.pdf>

B.5 Contracted Services – including but not limited to Transportation, Insurance and Food Service

Provide information regarding any non-CMO services for which the school intends to contract, including, but not limited to; accounting, food service, insurance, legal, technology, transportation, special education, assessment, and vocational rehabilitation services. Include an explanation of procedures used to select service providers.

Describe the policies and process used to select vendors.

Transportation

State whether the school intends to provide transportation for students. If so, describe the transportation plan and explain budget revenue and expenditure assumptions including those related to anticipated state aid pursuant to section 163.161. Whether or not the school will not provide transportation on a regular basis, describe how the school will arrange special transportation for students when required.

If the school intends to contract with the local district or any other third party for transportation services, discuss the status of those plans and provide evidence of the third party's readiness and terms for providing those services.

Note on Transportation: With the exception of related services required under an Individualized Education Plan, charter public schools are not required to provide transportation.

Insurance

Provide evidence of understanding of property insurance, liability insurance to indemnify the school, its board, staff and teachers against tort claims, and any other protections needed to appropriately insure operations.

Food Service

Provide evidence of understanding food service.

Evaluation Criteria

A response that meets the standard will:

- Provide evidence of ability and preparation to obtain appropriate insurance coverage.
- Demonstrate understanding of how to contract for needed services.
- Demonstrate preparedness to abide by all legal guidance and requirements in the procurement process.
- Demonstrate understanding of transportation laws and reimbursements.
- Demonstrate understanding of food service laws and reimbursements.
- Demonstrate preparation to meet its insurance obligations.

STATUTORY REFERENCE(S): 160.405.11; 166.405.13; 160.415.8.

B.6 Stakeholder Engagement

Parents

Discuss in detail your plans to engage parents and other family stakeholders. What role will parents or guardians play in school governance and operations; and in the education of their children? Some schools have very innovative ideas around parent education, alternative student conferences and parent meetings. Discuss those ideas here. In addition, discuss any plans for parent organizations, and how the school will handle grievances from parents or guardians.

Faculty and Staff

Discuss in detail your plans to engage faculty and staff. Discuss how faculty and staff will be involved in the governance and operation of the school, including any plans for structures and processes that give faculty and staff a voice in the decisions that directly impact their work. Describe how the school will handle grievances from faculty and staff.

Community Partnerships

Discuss your plans for community involvement. Describe the nature of potential partnerships including examples of how community partners will play an integral part in the life of the school. Identify specific organizations with which the school is already working or likely to partner. Describe any plans that involve outreach for fundraising or corporate partnerships.

Supplementary Materials

- Letter of support from community partners, if applicable
- Parent Handbooks, if available.
- Grievance policies and procedures, if available

Evaluation Criteria

A response that meets the standard will:

- Detail parent, community, and educator involvement in the governance and operation of the school.
- Present plans for community outreach and partnerships that align with the purpose and goals of the school.
- Demonstrate a substantial likelihood that the school will be successful in establishing the proposed affiliations.
- If significant partnerships are proposed, demonstrate that the community partners have the capacity and commitment to fulfill its anticipated role.

SECTION C: FACILITY AND BUDGET

This section presents your facility and budget plans for the school.

C.1 Facility

Discuss the school's facility needs based on the educational program and anticipated enrollment for the next ten years. Provide a description including, at a minimum, the number and size of the buildings, classrooms, common areas, administrative areas, recreational space, any community facilities, and any residential facilities. Describe how and when additional facilities will need to be acquired to meet growth plans.

If the applicants have identified a facility, indicate to what extent the facility currently meets all requirements and/or the extent that the facility will require renovation or 'build out.' If the school anticipates incurring debt as part of its facilities acquisition plan, the budget must include a repayment plan, as indicated in the C.2 Budget sub-section below.

If a facility has not been selected, specify potential locations that are under consideration and discuss the process and timeline for selecting, acquiring, renovating (if appropriate) and taking occupancy of a suitable facility.

Explain how any facility will meet the needs of students and describe how it will be accessible to students with physical disabilities.

Supplementary Material

- Floor plans of proposed facility
- Lease agreement
- Purchase terms

Evaluation Criteria

A response that meets the standard will:

- Reflect a sound understanding of facility needs.
- Demonstrate knowledge of facilities costs, including, as applicable: cost of purchasing, leasing, building, or renovating, and maintaining an educational facility that conforms to applicable health, safety, and occupancy requirements.
- Include evidence that the proposed facility will be adequate or present a viable plan for securing a facility that is appropriate and adequate for the school's educational program, anticipated location, and target population, including needs of persons with disabilities.
- Demonstrate that the school's plan for acquisition of a facility is financially viable.

STATUTORY REFERENCE(S): 160.405.5(2).(4) 160.405.1.(12)

C.2 Budget

The Charter School 5-Year Budget Template can be found at <http://dese.mo.gov/sites/default/files/qs-charter-app-budget-DESE.xls>

Use this template to detail the school's estimated revenues and expenditures for the proposed term of the charter, including the preoperational start-up year. Also provide a cash flow analysis for the period from charter application submission through the first school year, ending June 30). For both, include explanation and discussion of key assumptions underlying the budget projections and explain how the budget aligns with and supports implementation of the educational program.

Be sure to include a facility plan and budget and detailed staffing chart, with budget that clearly aligns to the general budget for each year of operation. The facility plan should include acquisition, operation, maintenance, repairs and improvements, and insurance. The staffing plan should include administration, instructional staff, including aides, and all other school personnel.

If the school anticipates incurring debt for any reason, such as for acquisition of its facility, the budget must address the schedule for debt repayment and the budget discussion should elaborate on the repayment assumptions and plan. This section should also discuss and include the school's contingency plans and alternate budget scenarios, facility plans, and staffing plans for cash flow challenges, a budget shortfall, lower than expected student enrollment, or other financial challenges in the early years of operation.

Evaluation Criteria

A response that meets the standard will:

- Present budget priorities that are consistent with and support key parts of the plan, including the school's mission, educational program, staffing, and facility.
- Present realistic, evidence-based revenue and expenditure assumptions, and a sound cash flow analysis, and debt management plan.
- Present viable strategies and contingency plans for meeting potential budget and cash flow challenges, particularly for pre-opening and first year of operation.
- Demonstrate a commitment to maintaining the financial viability of the school.
- Project a sufficient fund balance at the end of each fiscal year.
- Discuss how the staffing-related budget assumptions align with educational program needs.
